# Seven summits for a good cause

*By summiting mountains, we experience freedom.  
Through this challenge we can share that freedom with others.*

## THE EVENT

Christiaan Greyling will summit seven x 1000+m peaks in seven days and challenges more club members to take part. There's a chance to win great prizes, whilst simultaneously raising funds for the #start\_a\_chance campaign created by Starting Chance in aid of Lonwabo Special Care Day Centre.

## THE GOAL

By summiting a mountain a day we aim to raise one South African Rand for every one vertical metre climbed during the week by any of the club members, with the final goal being R50 000.

## HOW IT WORKS

If the metres are more than the money, more money must be raised, and if the money counter is higher than the metre counter, more summits have to be conquered by the club members.

## PRIZES WILL BE AWARDED FOR:

- The most money raised during the week on GiveGain (Give your name as reference)
- The best photo on social media with the hashtag #StartingChance
- Most vertical meters climbed during the week
